Art Unit: 1733

1. This application is in condition for allowance except for the following formal matters:

(A) In claim 22, line 12, it seems that wording such as "on" should be inserted after "disposed" to correct a grammatical error.

(B) The presence of claims 18-21 directed to an invention non-elected with traverse in the reply filed on 7-3-2006. Applicant should cancel the noted claims or take other appropriate action (37 CFR 1.144).

It is also noted that the text of canceled claims should not be provided.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. Claims 22-38 are allowed for the reasons advanced by applicant in the remarks accompanying the 7-3-2006 amendment. Additionally, it is noted that neither Takagi (US 2002/0153083) nor Caretta et al. (US 6,908,523) provides a mobile tire building trolley configured to support/transport each tire building drum in a detachable manner as claimed. Further, although it is known in general in the tire building art to apply tire components from both opposite sides of a building line (e.g. fig. 1A of EP 1295708 (previously cited)), this is not in the context of the specifics of the module as presently claimed.
